

Lotus Origami Folding Directions

Materials: A square cyanotype print or piece of paper.

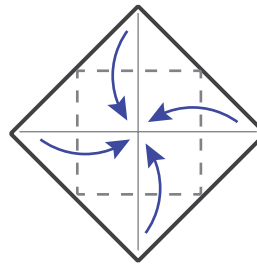

To Begin: Start with the blank side facing you.

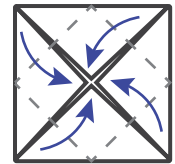

1. Fold two opposite corners together. Unfold.

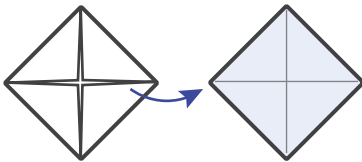

2. Fold the other two corners together and unfold again.

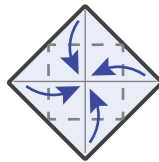

3. Fold each corner to the center.

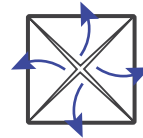

4. Fold each corner to the center again.

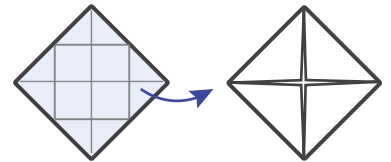

5. Flip the paper over.

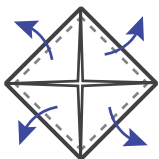

6. Fold each corner to the center.

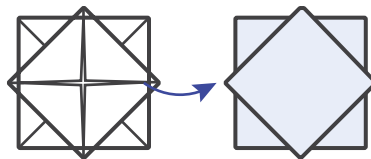

7. Unfold the corners once.

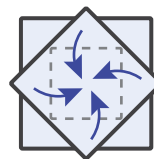

8. Flip the paper over.

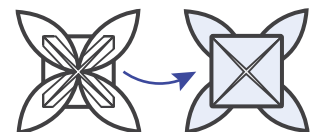

9. Partially fold back the corners leaving a small frame around the edge of the paper to create an 8-sided star.

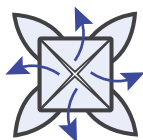

10. Flip the paper over.

11. Fold the inner corners to the center of the paper. (The flower should start appearing!)

12. Flip the paper over.

13. Fold the corners out from the center and curve them around to the other side.

Admire your lotus flower!
