Nature Brainstorming

While observing nature or thinking about an experience in nature complete the following.

List words that describe the environment.

Think about your five senses. What can you hear, touch, smell, see, or taste? Be specific.

Describe or draw any interesting natural objects, animals, plants, and/or weather that you observe.

What words would you use to express your feelings about being in this environment?

Create a Nature Acrostic Poem

An acrostic is a poem in which the first letter of each new line spells out a word.

Directions:

Write one related to nature down the left-side of the paper in the light gray box. Each line should begin with a word starting with the letter of that line. Each line should describe something about your subject.

Example: **L**azy water
Afternoon swims
Keeping an eye out for turtles
Energized by the sun
